AID FOR UNEMPLOYED

Great Scheme Proposed by the Salvation Army.

COLONIZATION IN COLORADO.

Operations Will Begin Within Six Weeks. Territory Enough to Accommodate Thousands of Persons—A Chain of Colonies That Will Girdle the Continent. Money Raised at a New York Meeting.

NEW YORK, Dec. 1.—There was a great audience in Carnegie hall last night, when Commander Booth-Tucker of the Salvation Army unfolded his plan to colonize the unemployed. It is his intention to have his plan in operation within six weeks. The colony is to be settled in western Colorado, and territory enough to accommodate several thousand persons has been obtained. Commander Booth-Tucker said: "The plan of the Salvation Army is to transport the surplus population from our cities to the vast tracts of fertile lands which have been placed at our disposal, varying in extent from 1,000,000 acres and including 23 different states in the west and south. Smaller tracts have also been offered to us in the east, and it is our purpose to form a chain of colonies which shall girdle the continent with help and hope and shall form stepping stones from the dismal abysses of poverty to the happy homes of prosperity which shall constitute our poor man's paradise. In the fertile valley of the Arkansas in Colorado, tens of thousands of acres await us with a climate and soil which can hardly be surpassed.

"It is our purpose to divide up these tracts of irrigated land into five and 10 acre blocks, to erect upon them a small cottage and to make such preparations that may be necessary for the welfare of the colonists.

"Not only is the land there, but the colonists are eagerly awaiting the signal to take possession of it with an alacrity which has surprised us. They have responded to our call from every portion of the United States. They will be selected by us with the utmost care and planted by us in circumstances where there is every prospect of their success. "There is only one missing link required to perfect the chain. To carry out the plan upon the large scale which shall be worthy of our nation and worthy of the emergency which faces us, will require considerable amount of capital. This we do not propose to ask for in the shape of gifts, but as loans bearing interest at 5 per cent and repayable in a period of 10 years. We propose to raise immediately a fund of \$100,000, with which we shall be able to place 200 families of 1,000 souls upon 2,000 acres of good irrigated lands. We shall form a co-operative loan association on the German reloan model, thus enabling the colonists to have some money in hand for the purchase of stock."

"When the blanks had been circulated among the audience it was announced that Elizabeth Livingston had given \$1,000, a "secret subscriber" \$5,000, ex-Governor Flower \$500 and John E. Milholland, \$1,000. There were a large number of small subscribers, and at the close of the meeting it was stated that nearly \$30,000 toward the movement had been raised.

FIGHT OVER CRAPS.

A Gun, Knife and Club Used With Fatal Effect.

WALTON, Ky., Dec. 1.—A bloody fight took place here between George and Ed Crutchfield, Dock Aylor and Lewis Crutchfield, all colored. They fell out over a game of craps. George Crutchfield hit Dock Aylor over the head with a club several times, fracturing his skull. He is now lying at the point of death.

Ed Crutchfield shot at Aylor three or four times without any serious results.

George Crutchfield was severely cut on the right shoulder, but he and his brother Ed made their escape and have not been arrested.

Lewis Crutchfield was not badly injured, and after the fight armed himself with a shotgun and revolver and defied the marshal to arrest him. The marshal called assistance and soon landed Lewis in jail, charging him with breach of the peace and carrying concealed weapons.

TURN IT OVER TO CONGRESS.

McKinley Decides He Can Do Nothing For the Klondike Sufferers.

WASHINGTON, Dec. 1.—The cabinet yesterday considered the subject of sending relief to the people in the Klondike. President McKinley received a telegram from the Portland (Or.) chamber of commerce stating that there was danger of destitution and suffering on the Klondike, and offering to supply the necessary food for relief if the government would undertake its transportation.

The information was not definite as to the actual conditions, but were on the same line that has been telegraphed from the northwest. The cabinet considered every phase of the situation and discussed ways and means of affording relief. It was decided that nothing could be done until congress met, when an appropriation will be asked for the purpose of transporting food supplies.

Run Down by a Train.

VALPARAISO, Ind., Dec. 1.—Late last night C. Wolf, while driving across the Grand Trunk, tracks west of this city, was struck by a train and thrown 40 feet. He will die of his injuries. His horses escaped.

MARTIN THORN GUILTY.

The Jury Returns a Verdict of First Degree Murder.

NEW YORK, Dec. 1.—Martin Thorn was yesterday convicted of murder in the first degree in killing William Guldenuppe, his predecessor in the affections of Mrs. Augusta Nack, at Woodside, L. I., June 25. At the request of Thorn's counsel the passage of the death sentence was deferred until next Friday morning. Thorn heard the juryman polled on their verdict, but his face never changed color during the trying ordeal. With lips firmly compressed and jaws hard set, he faced the judge, jury and courtroom full of spectators with well feigned stolidism.

About three weeks ago Thorn's first trial on the charge of murder was begun, but owing to the illness of a juror it had to be abandoned after three days. A second trial opened a week ago last Monday, and counting out three days on which the court did not sit, the trial consumed only six days.

Mrs. Nack's testimony during the mistrial made it compulsory for Thorn's lawyers to change their line of defense in the second trial, and they made a direct charge against Mrs. Nack and insisted that her alleged confession was a lie and that she herself was the instigator and perpetrator of the murder.

Thorn being ignorant of the killing until after Guldenuppe had been shot by Mrs. Nack. The woman was not produced during the second trial, but Thorn went on the stand and substantiated all the assertions made by his lawyers as to the midwife's guilt. His story, as the verdict shows, did not have the desired effect upon the jury.

The jury remained in deliberation just three hours, when they sent word to the judge that they were ready to render a verdict. Thorn's lawyers moved for a new trial on the ground that the verdict was not in accordance with the weight of evidence, but the motion was overruled.

Just what will become of Mrs. Nack has not been made known by the Queens county authorities, but it is generally thought that the people will accept a plea from her which will not call for capital punishment.

When Martin Thorn had been led back to his cell after the conviction he admitted that the verdict was just and that he and not Mrs. Nack killed Guldenuppe. This acknowledgement of guilt took place while Thorn's cell in the jail was being prepared for him. During the trial Thorn has been under charge of Police Captain Methven of Flushing. Captain Methven had him under his watchful eye when the jail officials searched the cell Thorn is to occupy for a day or two. While this was being done Thorn talked with the police captain. He said:

"I am glad it is over and the verdict given. I am convicted and I am contented. It was I who killed Guldenuppe and I cut up his body. Every word that Mrs. Nack said upon the stand was substantially correct. When I was on the stand I lied when telling the story as I did, but I lied to clear myself. It is no use carrying it any further. I am guilty and I am convicted. It is what I expected and what I suppose people think I deserve, and perhaps I do."

DOCKS DESTROYED.

Two Lives Lost in a Fire at Escanaba, Michigan.

ESCANABA, Mich., Dec. 1.—The most destructive fire ever witnessed in Escanaba occurred yesterday, when Dock No. 4, owned by the Chicago and Northwestern Railway company, was totally destroyed. The fire started in the hold of the steamer Nahant, which was lying alongside, taking ore, and soon communicated to the dock. The loss will approximate \$200,000. This includes 80 ore cars which could not be removed.

Two lives were lost, Fireman Jacob Bossart of the Nahant and a dockhand named Harold, both of Cleveland.

A Boy's Vengeance.

ROCKVILLE, Ind., Dec. 1.—James T. Sturgeon, a prominent farmer and stock buyer of the eastern part of this county, was shot and instantly killed yesterday by Harry Porter, a boy 16 years old. The cause of the killing was jealousy because of attentions paid by the dead man to the boy's mother. The family had warned Sturgeon to keep away. Sturgeon leaves a wife and a large family of children.

A Circular Saw Files Apart.

MARION, Ind., Dec. 1.—William Patterson, a 19-year-old boy, was instantly killed in Ackerman's spoke and heading factory yesterday, a 40-inch saw, revolving at terrible speed, flying to pieces, while Patterson was standing before it. The youth was almost literally split in two from his waist to his head.

An Engineer Falls Dead.

BRAZIL, Ind., Dec. 1.—Andrew Maubely, engineer at the Morgan sawmill in the southwest part of the city, dropped dead last night of heart disease. He was leaving his work, and as he stepped from the engine room he fell and expired. Maubely was about 55 years old and married.

River Victim Buried.

GHENT, Ky., Dec. 1.—The body of William Montgomery, found in the river at Vevay, Ind., was buried yesterday by the Masons and Knights of Pythias. Montgomery went to Cincinnati Aug. 5 with a shipment of hogs, and started for home Aug. 6 on the Lizzie Bay, but was missed on the steamer's arrival here. The body when found, was badly decomposed, but was identified by papers.

DARING DAUNTLESS.

She Has Furnished More Supplies to the Insurgents.

GOVERNMENT OFFICIALS FOILED.

She Towed a Schooner Out of Jacksonville and Then Transferred the Cargo. Spain Claims to Be Well Satisfied With Her Present Cuban Policy—Other Dispatches Relating to the Cuban War.

JACKSONVILLE, Fla., Dec. 1.—The steamer Dauntless has again eluded the officials of the government and has landed another cargo of arms and ammunition in Cuba. The Dauntless left this port on Nov. 19 for Savannah, Ga., with the schooner Jennie Thomas in tow. The schooner was supposed to be without cargo and when the famous filibuster was held up at the mouth of the St. Johns river and searched by the cruiser Vesuvius, little attention was paid to the Jennie Thomas. Nothing was found on the Dauntless and after an hour's delay she was allowed to proceed with her tow. That was the fatal mistake of the government officials, for, if the schooner had been searched it is said that a large cargo of munitions would have been found.

The schooner was towed to the mouth of the Savannah river and dropped and on Monday the Dauntless was boarded by Captain John O'Brien, better known as "Dynamite Johnnie" and immediately put to sea. She is believed to have effected a landing on Sunday night on the southern coast of Cuba.

Captain O'Brien and Lieutenant Quimby, the executive officer of the Vesuvius, were the guests of the same gentlemen at the Windsor hotel in this city at lunch on Sunday Nov. 21. Captain O'Brien left the same night and boarded the Dauntless off the Satilla river on Monday.

Cubans here have been keeping the story quiet, but now that they believe a landing has been effected they are more disposed to talk.

Worried at Washington.

WASHINGTON, Dec. 1.—If the Dauntless has really gone to Cuba with another filibustering expedition the administration will undoubtedly be greatly annoyed. In case the report should prove correct, Spain will probably make a representation to the state department on the subject, and the authorities will gather all the evidence possible to show that the "due diligence" as required by the neutrality laws was displayed by the federal and naval officers.

SPAIN WELL PLEASED.

She Imagines That Her New Cuban Policy Is a Success.

MADRID, Dec. 1.—A member of the Spanish cabinet, in an interview just published, says the government of Spain is well satisfied with the results of the publication of the decree providing for an autonomous form of government in Cuba and Porto Rico, adding that the manner in which it has been received in the United States is favorable to Spain.

The cabinet minister is further quoted as saying that the only difficulty to be apprehended is in regard to the position which the Carlists will assume; but the Spanish government, he explained, does not believe the country will support Don Carlos, "whose ambitions are condemned by the Vatican."

The minister further said that the plans of the Carlists had failed for lack of money. He denied that General Weyler, the former captain general of Cuba, who is alleged to be in sympathy with the Carlists, had been summoned to Madrid.

CUBAN EX-REBELS GET OFFICE.

Spanish Officials Make Flattering Reports of Success.

NEW YORK, Dec. 1.—A dispatch to The World from Havana says: As evidence of good faith toward repentant rebels the government will appoint Jesus and Adolfo Cuervo, who recently surrendered with a hundred men, to superintend the customs at Cienfuegos and Sagua. They will have important posts.

Spanish officials say that 300 more men of the Cuervos command will surrender. Clothing and \$5 will be given to each of them.

Since the new administration the amounts of imports have decreased one-half, but the customs receipts have increased 25 per cent. Honest merchants are jubilant; the others have almost ceased ordering.

WEYLERISM SUPPRESSED.

Printing Office Raided and Incendiary Circulars Seized.

HAVANA, Dec. 1.—General Blanco is determined that Weyler's friends shall not keep alive the spirit of hostility to the plan of autonomy. The police raided the printing office of El Comercio Constitucional and seized a large number of printed circulars. They were headed "Viva Weyler," and contained a glorification of Weyler and a virulent attack upon the United States and General Blanco.

The discovery was followed immediately by the arrest of Eva Canel, a well known newspaper woman, who is notorious as one of the most active of Weyler's partisans; Jose Hermida, the mayor's secretary, and the three employees of the printing office.

Provisional Cabinet.

HAVANA, Dec. 1.—General Blanco has

planned the immediate execution of the reform schemes. The captain general will appoint a full acting cabinet. With this cabinet the captain general will have at hand the means for a fully equipped executive government, which will last only until the elections shall have resulted in the choice of a new government.

INTRUDERS MUST GO.

Vigorous Report Respecting the Indian Situation Down in Oklahoma.

WASHINGTON, Dec. 1.—A remarkable report has been made to the interior department by Agent Dew M. Wisdom, in charge of the Union agency in Oklahoma, where the five civilized tribes are located. In this Mr. Wisdom says: "The intruders must go. They have made the Indians doubt the good faith of the government and made it more difficult to treat on the more important issues of allotment and the breaking of tribal autonomy in the nation to which the individual Indian belongs.

"A sound public policy demands the eviction of all declared intruders and any measure of expediency on the part of the department that temporizes with the intruder or postpones his removal on mere technicalities is fallacious and misleading. Let all the treaties be enforced and all the safeguards secured to the Indians be upheld in letter and in spirit and then the Indians will make liberal concessions and accept without murmuring that changed condition which confronts them."

The report deals with a number of important Indian developments. It says the clamor for a change in tribal autonomy has produced Indian unrest and disquietude, resulting in a determined purpose on the part of many of the full-bloods, who will act in their individual capacity, to emigrate to either Mexico or South America and there purchase new homes for themselves and families. This movement, the report says, may grow to the proportion of a colony.

TURNED AGAINST HER SON.

Mrs. Merry Would Like to See the Alleged Wife Murderer Hanged.

CHICAGO, Dec. 1.—Chicago detectives, following what appears to be good information, are scouring the pinnies of Wisconsin and Michigan for Chris Merry, the wife murderer, and James Smith. Meanwhile a score of officers are ransacking every corner of this city, and Captain Wheeler is making preparations to raze the stables used by Merry at 49 Hope street in the expectation of finding possible evidence of additional murders perpetrated by the fugitive.

The barn has the appearance, according to the police, of a "robbers' den." Several trap doors have been discovered and a number of holes in the chimney, which are supposed to have been used to conceal stolen property, have been found.

Mrs. Merry, mother of "Chris," visited Captain Wheeler and told him that she would try to ascertain the whereabouts of her son. Mrs. Merry said she could show marks on her head at the present time that had been inflicted by "Chris." She said that her son ought to be hanged.

Negro Hanged.

PITTSBURG, Dec. 1.—George Douglass, the negro, who accidentally killed Albert Grayer at Snowden, Pa., a mining hamlet near here, last spring, in attempting to murder another man with whom he had quarreled over a game of craps, was hanged in the county jail here at 10:19 yesterday. Death resulted from strangulation. The accused expressed sorrow for his crime and died in the hope of divine forgiveness.

Too Old to Work.

PITTSBURG, Dec. 1.—Richard Reddick, colored, who claims to have been born July 5, 1777, near Richmond, Va., applied at the department of charities for admission to the home, stating that he is now too old to work and can not support himself. He was accompanied by his wife, who is 78 years old, and his daughter, who is also well up in years. The centenarian was assured that he would be taken care of by the authorities.

English Capital Buy Our Thread Works.

NEW HAVEN, Dec. 1.—A cable dispatch from England indicates that the sale of the large Willimantic thread works at Willimantic, Conn., probably to foreign parties, will soon be consummated. The thread company has \$2,000,000 capital and employs several thousand hands. An option on its entire stock at \$31.25 for each share of \$25 par, expires on Dec. 15.

Jones, a missionary who arrived here yesterday on the Atlas liner Alene, from Port Limon, says that his wife was scared to death by the intrusion of a native, anxious to see the new baby, into her bedroom at San Carlos, Nicaragua. The native meant no harm, but Mrs. Jones was so frightened that she died from the shock.

OHIO PENITENTIARY.

Annual Report of the Managers Sent to the Governor.

THE PRISON POPULATION 2,447.

The Penitentiary It Is Thought Will Soon Become Self-Sustaining—An Unusual Accident—Woman Insane From Chloral. Fatal Result of a Fight Child Fatally Burned—Other Ohio State News.

COLUMBUS, O., Dec. 1.—The annual report of the penitentiary managers just filed with Governor Bushnell shows that during the year the greatest prison population was 2,447, the largest in the history of the institution.

The receipts for the year were \$272,068.26 and the expenditures \$306,650.22, a shortage of only \$34,581.96, which justifies the belief that the institution will become self-sustaining, as some new arrangements are being made to give employment to more prisoners.

The report commends electrocution as the best method of inflicting the death penalty; also the parole system as having a good moral effect on the prisoners. There are 116 now out on parole.

UNUSUAL ACCIDENT.

A Young Man Dying From the Effects of Swallowing Oil.

AKRON, O., Dec. 1.—Joseph Oser, a clerk in a hardware store at Doylestown, 12 miles south of this city, is at the point of death, the result of a very unusual accident.

A few days ago he attempted to transfer oil from one barrel to another by the syphon process. He used a rubber tube, placing one end in the barrel and the other end in his mouth. He then tried to start the oil by suction, using all the force his lungs could exert. The oil came with such force that part of it went into his lungs. Acute inflammation has set in and he is not expected to live.

Insane From Chloral.

MOUNT VERNON, O., Dec. 1.—Mrs. Olive C. Sharp has been in a disturbed mental condition for some time owing to the use of chloral, but has not been considered in a dangerous condition. Recently, however, she has developed marked indications of insanity and has been detected mixing poison in her husband's food. He is now dangerously ill and Mrs. Sharp has been adjudged insane and taken to the state hospital at Columbus.

Mistaken in the Woman.

CLEVELAND, Dec. 1.—A woman giving her name as Frances Davis, and claiming to be a former army nurse, was arrested here last night by a special pension examiner on suspicion of being Annie May, who was indicted several months ago for impersonating a pension agent. One of the victims of Annie May was asked to identify the prisoner, but failed to do so. Mrs. Davis was therefore released.

SANDUSKY, O., Dec. 1.—President John Gardiner of Norwalk and Vice President J. O. The motion for receivers was made by the principal owners, and is claimed to be a friendly proceeding.

Lake Vessels Missing.

CLEVELAND, Dec. 1.—The steamer Bulgaria and the schooner Amazon have been missing for 10 days. They are Cleveland boats and left two weeks ago with coal for Duluth. They passed the Sault Ste. Marie 10 days ago, but nothing has been heard from them since. Captain Corrigan, owner of the boats, is much concerned for their safety.

Fatal Result of a Fight.

SEVILLE, O., Dec. 1.—Joe Hart of this place is dead from injuries received during a drunken fight one night last week. CHAIRMAN DINGLEY will have no occasion to blush for his new tariff law when Congress meets. Neither will Congress nor the country.—Public Ledger.

Mr. Dingley's tariff law was framed especially to provide sufficient revenue for the running expenses of the Government. It lacked about \$9,000,000 doing that in November, and the deficit so far this fiscal year is only about \$45,000,000. As a revenue provider it has proved a rank failure, so far.

LARGER THAN EXPECTED.

Deficit For November Will Be Close To Nine Millions.

WASHINGTON, Nov. 29.—The forthcoming November statements of the Government receipts and expenditures will show that the receipts during November so far have reached \$22,950,890, which indicates a total of about \$25,000,000 for the month. This is a trifling improvement over October, when the receipts were \$24,391,415. The deficit thus far during November stands at \$8,572,109, which is larger than was expected.

The deficit for the fiscal year stands at \$46,581,120, the receipts having been \$127,701,160 and the expenditures \$174,282,280.

The receipts from customs so far this fiscal year undoubtedly will fall considerably short of the estimates made by the managers of the new tariff bill during its pendency in Congress. At that time it was estimated that customs would yield about \$180,000,000 during the first year. The indications now are said to be that the receipts from this source will not aggregate more than \$165,000,000.

Russ Hall.

The Louisville Dispatch has the following in reference to one of the members of Maysville's famous '95 ball club: "The fates are kind to Russell Hall, Esq., of Shelbyville, Ky. One year ago he was a comparatively unknown quantity in the baseball business, hustling for a job, like all minors. Now he is one of the best advertised men that ever caught a ball, the central figure of a five-act drama in which St. Louis lends him stellar support, with Grand Rapids, Milwaukee, Kansas City and Montreal filling in minor roles. Two weeks ago Milwaukee and Montreal were contending for his services, the former claiming to have purchased the husky shortstop's release from McCloskey. In the Western League reservation list he now appears claimed by Grand Rapids, Kansas City and Milwaukee, while the league's German comedian, Chris Von der Ahe, asserts that he drafted Hall at the Philadelphia meeting."

WORK FOR DINGLEY.

His Tariff Has Proved Itself Not a Revenue Producer.

[New York Sun]

The President will not do his whole duty, either as Chief Magistrate or chief Republican, if he omits to ask Congress, in the annual message which is about to go to the Capitol, to supplement the tariff act of last summer with legislation which shall stop the deficit and provide the Government with adequate revenue. Congress will not do its whole duty if it fails to take up the revenue question, promptly and boldly, and to put an end to the ever-increasing shortage.

Mr. Dingley and his Republican colleagues of the Committee on Ways and Means will not do their whole duty unless they frankly admit that the present tariff act is not a perfect measure as a revenue producer, and devote their best energies and best intellectual efforts to perfecting it. No pride of authorship and no Micawberish procrastination should stand in the way of a prompt and effectual treatment of existing deficiencies.

The provision of sufficient income, by means of a simple amendment of the present schedules or of a broad addition to the internal revenue, need not involve any general disturbance to business or any pernicious unsettlement of what was accomplished at the extra session. The process need not frighten anybody.

But now is the time, if ever. Now is the time, before a yet further swollen deficit shall discredit the main measure for which the country will hold the Republican party responsible. It will have to be done. It were better done before the Congress elections of 1898.

TO OUST DEMOCRATS.

Collector Roberts Said to Have Hit Upon a Scheme to Get Rid of Some of Them.

FRANKFORT, Ky., Nov. 20.—The Republicans here who are anxious for jobs in the revenue service are jubilant to-day over a move just made by Collector Sam Roberts. All the other Kentucky Collectors have adopted some method of turning out Democrats and putting in Republicans, contrary to the civil service regulations, but so far Collector Roberts has made no change in his force of storekeepers and gaugers. One of the Republicans who have been expecting a job said to the Enquirer representative to-night:

"We are feeling good to-day because Collector Roberts, in making out his list of assignments, has laid off a number of his best men and put in their places the least competent and most inexperienced men on the roll in this district. I have information that comes pretty straight that these incompetent men will be objected to by the distillers after a few days' work, and they will be removed from the service for incompetency."

"Then some of us Republicans who are on the eligible list will be put on duty. I believe some of the more expert Democratic gaugers and storekeepers will be retained, but a majority of the force in this district will be Republican in a few more months of this gradual weeding out."

\$47,033.80.

Sheriff Jefferson Forwards a Check For That Amount to Frankfort in Full Settlement of State Taxes.

Sheriff Jefferson forwarded a check to the State Auditor last night for \$47,033.80, in full settlement for the taxes due the State from Mason County for the year 1897.

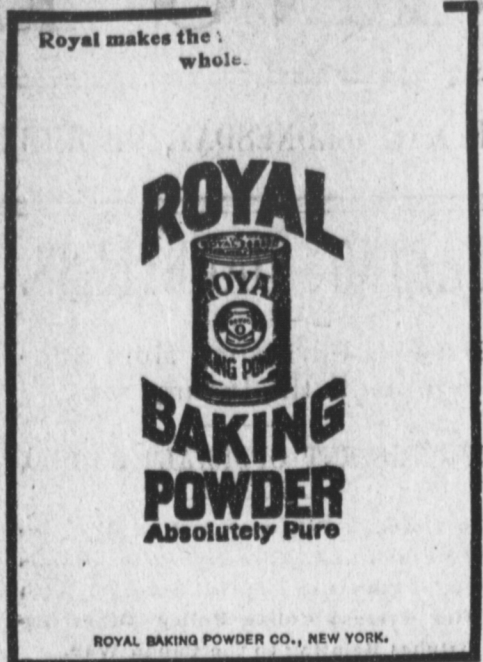

The penalty is added to all taxes not paid before to-day, December 1st, and the Sheriff and his deputies have been rushed with business the past few days, as a great many of the tax-payers put off settling until the eleventh hour.

The check sent last night is the biggest ever forwarded by Sheriff Jefferson, and it is probably the largest amount of taxes ever turned over to the State, from this county, at one time.

There is in Germany already insurance against old age, accident and sickness. The government aids the old age and sickness fund. But a new one is to be started which the government will not aid. It will be called Industria. Its aim and object will be to insure its members against losses from strikes. Thus with a fund at his back to support him the German workman could go on strike when and where he pleased, except that such a course would soon eat up all the profits of the concern.

It is nothing unusual to hear of a pugilist going through the country expressing his willingness to meet all comers but to find a bicycle rider throwing the gauntlet down in the same manner is out of the usual routine. Such, however, is the challenge made by the only Lawson, better known as "The Terrible Swede," and who will soon appear in this city with the Swedish dialect comedy "Ole Olson." As we have several wheelmen in our midst no doubt some one will accept the defi of "The Terrible" and discover of what material he is constructed.

REV. JASPER FIELDS, of the Kentucky Conference of the Methodist Church, was placed on trial at Greenup Monday to answer charges preferred against him by Miss Lena Crugar. The court consists of seven elders, with Rev. J. G. Dover, Presiding Elder of the Ashland District, as Judge. Miss Crugar is a second cousin of Fields, and in January, 1897, she was employed as a domestic at the home of a Mr. Bates, at Olive Hill, Ky. Fields was pastor of the Methodist Church at Olive Hill at the same time. In September Miss Crugar charged Rev. Fields with being the author of her shame, but subsequently filed an affidavit protesting his innocence. On a later date she filed another affidavit, again charging her ruin to Rev. Fields. Fields alleges it is a case of attempted blackmail, and that he will be able to vindicate himself. The members of the trial committee who arrived early Tuesday were: A. B. Leonard and Isaiah Cline, Ashland; T. W. Howes, Advance; A. L. Williams, Quincy; William Jones, Tollesboro, and John Cheap.

NAPKINS.—Good worthy weavings of pure flax. No guess work. To own linens from this store is to know that nobody owns better. That means we sell the best all-linen Linens made. A sweeping statement, but we have the goods to substantiate it. Our buyer gathered a Napkin bargain this month. Linen users everywhere have an interest in it. The price for the quality is the lowest we know. For \$1.29 a dozen substantial Scotch Damask Napkins, full selvage, grass bleached in a large line of patterns, 24 inches square. For 98c. a dozen fine snow-white Damask Napkins from Scotland, plump 22 inches square. Plenty of pretty patterns. \$1.50 would be a fair price.

TOWELS.—Whatever else the Tariff did—and it's blamed as well as praised—it has raised the price of linens in this country—raised them already in other stores and must raise them proportionately here—after a little. Get-ahead folks won't care, however, for they'll have a year's towel supply from the lot we offer to-day. For 12½c. a Scotch Bleached Huck Towel, Barnsley weight. Will stand lots of wear. Hemmed. 22 by 40. Affords ample drying surface. They have found willing takers at 20 cents. Every housekeeper is interested in this offering.

THE TOBACCO CROP.

The New is Selling Higher Than Ever Before at This Season of the Year.

The Outlook.

[Louisville Commercial.]

Not in the history of the Louisville tobacco market has the new crop sold as high before January, as now.

It is a fact that new tobacco is selling way above the old crop and old tobacco has not been so high since 1874, which makes the prices received very satisfactory to sellers.

This can not be attributed to any one cause, unless it be the shortage in the 1897 crop, which is considered to be about 40 per cent. New tobacco is not any better than the old; in fact, considering the whole, it is not as good, being deficient in body, and the late cuttings are said to be a little green, and not well cured, which is caused by the farmers getting afraid of frost, and housing their tobacco too soon.

The situation as to prices is exceedingly satisfactory to sellers. The market is stronger than since 1874 from the small stock of old and shortage in the new. The grades selling between \$7 and \$14 are high, and seem to be given the preference by buyers. This has a good body, red or color, sweet and in good condition. The medium better grades of burley and darks is going to sell unusually high, according to some of the most prominent warehousemen. The prices so far received range between \$14 and \$20.

About all the new received has been sold at satisfactory prices, and so far as heard from only one hoghead has been rejected, that being a very poor, green trash, which was undesirable at any price.

In all, 257 hogheads of new have been disposed of, nine of which were darks, the remaining 248 of burley, the latter averaging \$8.40. The average of 398 hogheads for the same date last year was only \$3.18, which is less by half than the average this year.

One fancy crop of six hogheads of Bourbon County burley was sold last week at the Central warehouse at an average of \$13.50, while at the other warehouses prices were equally as good, considering the quality.

How to Cook Eggs à l'Annee.

Hard boil 6 eggs, shell and cut them in halves lengthwise, remove the yolks and mash them to a paste. Chop fine a dozen mushrooms, put them in a stewpan with 2 tablespoonfuls of butter and 10 drops of onion juice and saute until golden brown; add the mashed egg yolks, a tablespoonful of chopped parsley, level teaspoonful of salt and half a saltspoonful of pepper. Stir into this a well beaten egg mixed with 2 tablespoonfuls of cream. When the consistency of a soft scramble, fill the halved whites with the mixture and serve at once on slices of buttered toast. Do not have the mushrooms for frying very ripe, and they are much nicer fried in good bacon fat.

TWENTY ROUNDS TO A DRAW

Joe Choyinski and Jim Jeffries Meet at San Francisco.

SAN FRANCISCO, Dec. 1.—Joe Choyinski of San Francisco and Jim Jeffries of Los Angeles fought 20 rounds to a draw last night before the National club. Choyinski conceded 50 pounds in weight and on this account was compelled to draw on his superior ring generalship and long experience at the game to avoid the rushes of his giant opponent.

Jeffries, who displayed much improvement in the art of defense and attack, still lacks in experience. He failed to follow up on Choyinski when an opportunity offered. On the other hand Choyinski fought with excellent judgment. Even his oldest admirers were surprised at his generalship. He avoided clinching except when absolutely necessary and his ducking was marvelous. He depended almost entirely on left jabs on the nose and mouth to stop the big fellow, and after the 11th round kept blood flowing from Jeffries' nose.

In the second round Jeffries brought Choyinski down with a left swing on the neck, which left Joe flat on his back. The blow was ineffective, however, and Joe arose as strong as before. Referee Jimmy Donald's decision was satisfactory to the crowd of 5,000 persons.

PRIEST PLUNDERED.

A Well Dressed Man Calls at the Parsonage and Robs Him.

RUSHVILLE, Ind., Dec. 1.—Last night a well dressed stranger call at the Catholic parsonage and summoned Father Logan, saying he wanted him to wait upon a sick man. As Father Logan opened the door sufficiently to speak to the stranger, the latter suddenly threw his weight against it and forced it open, and, thrusting a revolver against the priest's face compelled him to hold up his hands. Then he searched the pockets of his reverence, taking all of his valuables, amounting to a considerable sum.

After despoiling the priest the burglar seized him by the neck and dragged him out of the house, after which he locked the door and proceeded to systematically search the premises. Father Logan hastily sought assistance from the neighbors, but by the time the posse had gathered the burglar had flown, locking the doors after him. Nothing in the house was taken. The priest regained possession through a transom window.

WHEREABOUTS UNKNOWN.

A New York Man Probably Murdered in Chicago.

CHICAGO, Dec. 1.—Policemen in Chicago and New York are trying to learn the whereabouts of John Patterson of 163 One Hundred and Fifteenth street, New York, who disappeared Oct. 2. Patterson is 69 years of age and is employed as a traveling salesman by the Northwestern stove works of Milwaukee. Oct. 2 he was in Milwaukee and intended to take the evening train for Chicago on his way east. He had \$184, which he had collected, in his possession. It is believed he came to Chicago and was robbed and probably killed.

Mr. Patterson was 5 feet 10-12 inches in height, weighed 170 to 175 pounds, wore bow glasses, and a double set of false teeth. His hair is white and his mustache is rapidly whitening. F. W. Patterson, his son, has come from New York to stimulate the search for the missing man.

It is thought that the proposition will carry and that the first of the year may see the fires lighted in all of the factories.

The Greatest Discovery Yet.

W. M. Repline, editor Tiskilwa, Ill., "Chief," says: "We won't keep house without Dr. King's New Discovery for consumption, coughs and colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home, as in it we have a certain cure for coughs, colds, whooping cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottles free at J. Jas. Wood's drug store.

Offerings Decidedly Smaller Last Week. Receipts Light—Prices Satisfactory on All Grades in Good Order.

[Furnished by Glover & Durrett, Louisville Tobacco Warehouse.]

Sales on our market for the week just closed amount to 1,349 hhds. with receipts for the same period 1,254 hhds. Sales on our market since January 1st amount to 157,693 hhds. Sales of the crop of 1896 on our market to this date amount to 137,872 hhds.

The offerings on our market last week were decidedly smaller, owing partially to light receipts and to the intervention of Thanksgiving Day. Prices for all grades of burley, in good sweet order, have been very satisfactory to sellers. The medium and common grades without color, that have been funkied, have been irregular and at times little asked.

There has been sold on our market up to this writing about 200 hhds. of the new crop, the quality of which in the main has been poor. The prices realized for it have been in the neighborhood of three times as much as was realized for new tobacco at this time last year. There has been only one crop of good burley sold up to this writing. That was a crop of six hhds. from Bourbon County that averaged over 12c. from the ground up; the best hhd. bringing \$20. With another good handling season, we look for increased receipts especially of the new tobacco.

The following quotations fairly represent our market for burley tobacco (1896) crop:

Death of an Old Physician.

FREMONT, O., Dec. 1.—Dr. Thomas Stilwell, Fremont's oldest physician, died yesterday aged 82.

Why is it that one man is old and decrepit at 45, and another hale and hearty at 90? It depends on the care he takes of himself. Often a man's body gets out of repair—the trouble grows until it lays him out in bed. Whenever a man feels that he is not as well as he ought to be, whenever he is listless, without energy and without vitality, whenever he finds that he is losing weight and that his ordinary work gives him undue fatigue, he needs Dr. Pierce's Golden Medical Discovery. If he keeps on working with his liver inactive and his blood impure—he keeps his nerves and his body under a constant nervous strain. He will not be hearty when he is old. The "Golden Medical Discovery" cures many so-called diseases because nearly all illness springs from the same thing—bad digestion and consequent impure blood. The "Discovery" makes the appetite good, the digestion strong, assimilation easy, and the blood rich and pure.
